### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

1. Claims 19-23 and 25-42 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Claim 19 recites, inter alia, *high voltage ac voltage line extending between two switchgear units; the ac voltage line comprising at least one cable; the cable being an extruded cable with an inner electric conductor, an insulating layer surrounding the conductor, and an outer screen layer located at ground potential;*

*at least one inductor located along the cable between the switchgear units and integrated into the at least one cable; the at least one inductor being connected to the electric conductor of the at least one extruded cable and ground;*

*and a casing through which the cable is lead, the casing being located at ground potential and the at least one inductor being arranged in the casing, wherein the first end of the at least one inductor is connected to the electric conductor and a second end of the least one inductor is connected to the casing.*

The reference of record does not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
